

Pop-up Box Single-Use Beverage Cooler

South Coast Solutions' Pop-up Box Single-Use Beverage Cooler is ideal for customers looking for a unique, environmentally friendly alternative to packaging.

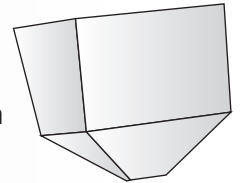

Features

- Corrugated quick set box with solid bottom.
- 12 can, 24 can, and 12 bottle structures capable of holding 8 lbs of ice are available.
- No tape needed to seal the boxes.
- Custom sizes available upon request.
- Fully customizable in size and graphics from simple, one-color art to high-resolution, full-color graphics.
- Great marketing tool for displaying company logos and product messaging.
- Tested to be leak-proof for up to 72 hours.
- Environmentally sustainable:
 - 20% post consumer waste
 - SFI-certified board stock
 - 100% curbside recyclable
- Great environmentally friendly replacement for styrofoam coolers.
- The box requires very little storage space.

Environmentally Sustainable Beverage Cooler

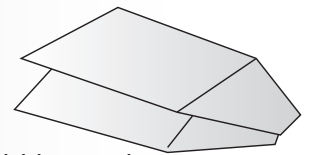

To assemble

- Simply place the bottom of the carton on a hard surface.
- Press down, and box will "pop" open.

To collapse carton flat

- Press in the center of the width panels.
- Carton will begin to fold inward.
- Lay carton down and press flat.

The Pop-up Box Single-Use Beverage Cooler is the ultimate promotional tool. The cooler can be customized to meet your needs and is great for outdoor, corporate, collegiate events, and much more!
