

Foodservice Packaging

We provide the highest quality single-use beverage cups, helping you effectively advertise and support your brand. Whether it is paper, recycled fiber, compostable, or insulated, our foodservice products feature contemporary designs and a variety of lids and accessories to complement your business.

Standard Cups

Standard Cold Cups

Our traditional double-sided poly (polyethylene) coated cold cups deliver quality performance to the foodservice industry. Available in a broad range of sizes with a variety of lid styles, we have the perfect combination to meet your needs.

Showtime™

Flat Clear Straw Cold Cup Lid

Standard Hot Cups

Our traditional paper hot cups are coated using a single poly (polyethylene) lining, used as a moisture barrier. A variety of lid types and colors are available to fill all your needs for beverages on-the-go. Our hot cups are offered in various warm designs to complement any décor or they can be printed with your logo using our high-end graphics capabilities.

ecotainer®

Making a difference – one cup at a time®

ecotainer® foodservice packaging products are made from fully renewable resources - fiber from responsibly managed forests and Ingeo® biopolymer from a plant-based material. By using compostable cups and lids, we are decreasing our dependencies on petrochemicals and reducing the amount of waste being sent to landfills.

- Made with fully renewable materials
- Meets ASTM standard for compostability
- Certified by the Biodegradable Products Institute (BPI®)
- Compostable in most commercial composting facilities*

*Commercial composting facilities may not exist in your area. Please check with your local municipality or go to www.findacomposter.com.

10% PCF Cups

PCF single-use paper hot cups are made with a minimum of 10% post-consumer recycled fiber. The PCF hot cup provides another alternative to help reinforce your commitment to the environment.

Renew World™

Individually Wrapped Hot Cups

The individually wrapped cup is designed to eliminate concerns around cleanliness for in-room beverage service. Consumers can feel confident opening the seal, knowing that they will be the first to use that cup. This cup fits under most standard in-room coffee machines and is stackable to save counter space. Both standard and ecotainer® hot cups are available.

Cup Carriers

Cup carriers are perfect for easily holding multiple hot beverages at one time. The 2-cell and 4-cell carrier options maximize drink stability with built-in cut-outs that wrap around the side of the cup to hold it in place. The sturdy construction and top handle allows you to hold several hot drinks at one time without actually holding the cups, making on-the-go drink transportation manageable for consumers.

2 Cell-cup

4 Cell-cup

Hold&Go® The Hot Cup with a Cool Feel®

Hold&Go® insulated paper hot cups use ThermaShield™ technology to provide a versatile solution for on-the-go beverages. The combination of high-quality graphics and sturdy construction are appealing to customers purchasing premium beverages, while the functionality is ideal for operators looking for more efficient and effective packaging solutions.

Features

- Double-wall design eliminates the need to double-cup or add a sleeve, improving beverage service speed
- Insulating air gaps create an additional layer of security
- Two lid styles in black or white, with common lids for 12-20oz
- Available in custom prints or stock designs
