

Wide-format Media

South Coast Solutions offers the conVerd paper product line for both indoor (backlit and P.O.P.) and outdoor (billboard and shelter) signage.

Indoor and Outdoor Media

conVerd Board™ MR

(Indoor)

This rigid, moisture-resistant board is a multi-ply alternative to traditional foamboard and corrugated plastic boards. It is printable on two sides for indoor Point of Purchase upright and hanging sign applications.

Applications:

- Hanging signage
- Indoor P.O.P.
- Menu Boards
- Standees
- End caps
- Aisle markers
- Window signage
- Trade show signage
- Displays
- Table tops
- Danglers

Blox-Lite®

(Indoor)

A 100% opaque, grommetable banner and sign material, Blox-Lite is printable on two sides and available in 10-, 12-, and 14-point media. This product is suitable for use to hang in windows and from ceilings.

Applications:

- Hanging signage
- Banners
- Posters
- Front lit displays
- Window signage
- Indoor P.O.P.
- Trade show signage

EnviroScape Mural® Plus! - Dpi

(Indoor)

EnviroScape Mural® Plus! Dpi is an alternative to traditional vinyl and pressure sensitive vinyl materials. This high performance, dimensionally stable, breathable and environmentally sustainable print media is designed with 10% PCW (Post Consumer Waste) and available with or without a water-activated and 100% removable adhesive system for easy installation and removal.

Applications:

- Murals
- Wall décor
- Front lit displays
- Window signage
- P.O.P. signage

GreenLight® Plus! - Dpi

(Indoor and Outdoor)

GreenLight® Plus! - Dpi is bright white blend of 10% PCW (Post Consumer Waste) and FSC-certified fiber designed with high formation for uniform light transmission in Backlit and Frontlit Poster applications. GreenLight® Plus! - Dpi is a coated two side (C2S) and printable two side (P2S).

Applications:

- Bus shelters
- Mail Kiosks
- Backlit displays
- Front lit displays
- Retail signage
- Airport, nightclub, and hotel displays
